## DETAILED ACTION

Claims 1-5, 11, 12, 15, 17-26 and 28 are pending.

### *Election/Restrictions*

- I. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. **Claims 1-4** include the distinct feature of determining whether to delay responses to client requests based on different factors, classified in class 370 subclasses 395.21 and 395.4—drawn to transmission control based on traffic contracts, such as QoS, and transmission scheduling using delay parameters.
  - II. **Claims 5, 11, 12, 15, 17-26 and 28** include the distinct feature of transmitting a requested resource to the requesting clients using a format to reduce congestion, classified in class 709 subclass 235—drawn to controlling the flow of data between computers in order to avoid congestion.

II. A telephone call was made to Atty. Michael Ferrazano on February 28, 2007 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement, to be complete, must include an election of the invention to be examined even if the requirement is traversed (37 CFR 1.143).
